

Unplugged Coding

Thursdays, 2/7 - 3/14

6:30 - 7:30 pm

Saturdays, 2/16, 3/2, 3/16

2:00 - 3:00 pm

Have you ever wondered how a robot knows what to do? Or how websites communicate with you? Learn the answers to these questions and a whole lot more... all without ever touching a computer! We'll teach you all the fundamentals of coding through games, crafts, and all sorts of activities, such as building an art robot or making your own Minecraft monster.

For grades 1-5. Online registration required for each program date.

Feb 7: Algorithms: Learn how programmers use algorithms to give programs directions.

Feb 14 & 16: Conditionals: Learn how programmers account for all the different things that come up when people use their programs.

Feb 21: Using Binary: Learn the language that computers use to communicate!

Feb 28 & Mar 2: Art-based Coding: Learn how to start thinking computationally by building your own robot.

Mar 7: Follow the Rules: Learn how code represents space and images, and about the rules that make computers do specific things. Activities include a small Minecraft paper activity for fans of the game!

Mar 14 & 16: Working Robots: Join us as we make paths for robots to learn more about how algorithms work.
