October 17, 2017

Dear Residents of East Park & Hughes Avenue:

This letter is to inform you that North Penn Water Authority (NPWA) will begin the construction of a new 8" water main in Sellersville Borough.

There are two phases to this project:

- *Water main will be replaced on East Park Avenue from North Main Street to Herbert Street. Hours of construction are 9:00 am to 3:00 pm.*
- *And on Hughes Avenue between from East Park and East Pine Street. Hours of construction are 7:00 am to 4:00 pm.*

This new water main will replace older water main prone to breakage and will enhance the public water supply and fire protection to the residents of Sellersville Borough.

Mobilization and construction will begin on Monday, October 23rd starting at the intersection of North Main Street and East Park Avenue followed by main construction on Hughes Avenue. After completion of the water main installation, the water services will be renewed from the new water main to the property owner's curb stop located in the utility right of way behind the curb in the grass or sidewalk followed by soil, concrete & trench restoration. We anticipate the construction work to take approximately 4 to 5 weeks.

In order to ensure the public and workers' safety, traffic control will be utilized on East Park Avenue and a road closure will be used on Hughes Avenue during the hours of work (*See schedule above*). At the end of each work day the roadway will be open and traversable. School buses, emergency vehicles and residents will have access to their homes, but may experience minor delays in some instances.

We will make every effort to keep unobstructed access open to local residents to the fullest extent possible. We have notified the School District and your local emergency response units to assure they will have access and that your essential services are not interrupted. For your protection, we have videotaped the property frontage of your curbs, sidewalks, blacktop, lawns and driveways to ensure that any damage that may be caused is restored to a condition that is at least equal to the current condition. All concrete, blacktop, or grassy areas that are dug up will be restored.

We regret any inconvenience that you may experience during this period. This improvement project is part of our ongoing, asset management plan to replace older water mains in order to continue to provide our customers with high quality drinking water and adequate fire protection. If there are any questions or concerns, please call the office between the hours of 8:00 a.m. and 5:00 p.m. Your input is invaluable to us, and enables us to serve you better. Your patience and cooperation during this period are much appreciated.

Sincerely,

NORTH PENN WATER AUTHORITY
